Students entering any of the following programs at St. Lawrence College are required to provide proof of immunization. For all students the absence of documentation may result in the student being ineligible for clinical/practical/laboratory participation.

- Communicative Disorders Assistant
- Therapeutic Recreation
- Community and Justice Services
- Social Services Worker

### Steps to follow – Please read carefully

1. Read thoroughly the entire form so you understand what is required to complete this form.

2. Do not wait to start this process. Bloodwork and immunizations can take a number of appointments.

3. Obtain **immunization records** from one of these sources:
   a. Local Public Health Unit – this is the easiest and most reliable form
   b. Yellow Immunization card
   c. Contact your family doctor

   If you are unable to obtain records, contact your campus designee as noted below.

4. Book an appointment with your health care provider for **bloodwork** and any missing immunizations. Most students will require TB skin testing.

5. Follow-up with your health care provider regarding bloodwork results to check if you need boosters.

6. Attach copies of immunization records and bloodwork results.

7. Submit completed Immunization-Communicable Disease Form to your designated St. Lawrence College Campus* one month before the start of first semester.

It is important to fill this form out correctly and completely, please email us with any questions at [Immunizations@sl.on.ca](mailto:Immunizations@sl.on.ca)

Where the following records do not exist, are incomplete, or are not comparable to Canadian immunization standards the student will be required to complete an adult catch-up vaccine series as defined by the Public Health Agency of Canada. Any costs associated with the completion of these forms are the responsibility of the student.

*Designated St. Lawrence College Campus*

St. Lawrence College

</tr>
</tbody>
</table>

A 2-step TST is required regardless of BCG vaccination.

A 2-step TST is required once in a lifetime.

If a 2-step TST was completed previously and documentation can be provided, a 1-step TST can be completed annually. The 2-step TST should be 1-3 weeks apart with each test read within 48-72 hours. A 1-step TST is required if it has been more than 12 months since the 2-step TST.

A 10 mm or more induration is positive. If either TST is positive, a copy of completed chest x-ray report (within the last 12 months) must be attached to this form.

If you have documented history of a previous positive TST, a TST is not required. Instead, a chest x-ray is required within the last 12 months and must be attached to this form.

### Chest x-ray: Required only if TST is equal or > 10mm

- Copy of positive TST: □ Document attached (Mandatory)
- Copy of chest x-ray: □ Report attached (Mandatory)

### Varicella Vaccine

Documentation of 2 varicella vaccines are required. Those who received only one dose of varicella vaccine should be given a second dose. If no records available, bloodwork to determine immunity to varicella is required.

1. Copy of records attached (Mandatory) □ Dose #1 Date (m/d/y): ____________ Dose #2 Date (m/d/y): ____________
   OR
2. Copy of lab results attached (Mandatory) □ Date drawn: ______________
   Results: □ Reactive □ Non- Reactive or Indeterminate

If you are not immune, 2 doses are required: Dose #1 Date (m/d/y): ____________ Dose #2 Date (m/d/y): ____________
Measles, Mumps, Rubella Vaccine (MMR)

Documentation of 2 MMR is required. If one vaccine was measles only, an MMR booster is required.
If no records available, blood work to determine immunity to measles, mumps, and rubella is required.

1. Copy of records attached (Mandatory) □ Dose #1 Date (m/d/y): ___________ Dose #2 Date (m/d/y): ___________

OR

2. Copy of lab results attached (Mandatory) □ Date drawn: ___________

Results:

- Measles: □ Reactive □ Non-Reactive or Indeterminate
- Mumps: □ Reactive □ Non-Reactive or Indeterminate
- Rubella: □ Reactive □ Non-Reactive or Indeterminate

If you are not immune, a booster is required: MMR Booster: Date (m/d/y): ___________

Tetanus/Diphtheria/Pertussis Vaccine

Documented proof of a primary series is required OR an adult catch-up series is required. A single dose of Pertussis is required for all adults.

1. Do you have documented proof of completed primary series?
   □ YES □ COPY OF RECORD ATTACHED (MANDATORY)
   or □ NO If no records of any vaccines, an adult primary series is required (see below)

2. Last tetanus diphtheria vaccine must be within 10 years

Date (m/d/y): ___________ Type of vaccine given ___________ □ COPY OF RECORD ATTACHED (MANDATORY)

   Adult catch-up series 1st dose (Adacel or Boostrix) Date (m/d/y): ___________

   2nd dose (Td – 2 months after 1st visit) Date (m/d/y): ___________

   3rd dose (Td – 6-12 months after 2nd visit) Date (m/d/y): ___________
**Hepatitis B Vaccine**

Students who are non-reactive to hepatitis B despite completing the initial vaccine series are required to have a booster dose and repeat bloodwork to confirm immunity.

If a student continues to be non-reactive, the student will need to complete a second hepatitis B vaccine series.

Unimmunized adults require a 3 dose series. **Schedule**: 0 month, 1 month, and 6 months

<table>
<thead>
<tr>
<th>Initial Vaccination series (2 or 3 dose series)</th>
<th>If required: Repeat Hepatitis B vaccination series</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dose #1: Date (m/d/y): _________________________</td>
<td>Dose #1: Date (m/d/y): _________________________</td>

<td>Dose #3: Date (m/d/y): _________________________</td>
</tr>
</tbody>
</table>

**Hepatitis B immunity** (at least 30 days after last dose)  
Copy of lab results attached (Mandatory) □

Date drawn: ______________  
Results: □ Reactive □ Non-Reactive

**If required**: Repeat Hepatitis B immunity (at least 30 days after last dose)  
Copy of lab results attached (Mandatory) □

Date drawn: ______________  
Results: □ Reactive □ Non-Reactive
